

Supervisor/Leader Support

BSS provides a supervisor/leader and manager support service, which offers assistance to boost the confidence of supervisory staff dealing with interpersonal problems. Typical issues BSS psychologists have assisted with include:

- ▷ How to speak with an employee about unsatisfactory work performance
- ▷ How to deal with a stressed employee
- ▷ How to handle the angry employee
- ▷ How to manage a dispute between two employees
- ▷ How to handle a disruptive meeting participant
- ▷ How to support a grieving employee
- ▷ How to respond to a complaint from an employee
- ▷ How to motivate a reluctant employee.

These are only a few examples of how BSS psychologists have assisted client organisations. BSS Supervisor/Leader Support can be accessed by phoning the BSS office on 9211 3700 or Freecall 1800 30 30 90. Mention the request is for Supervisor/Leader Support and a prompt phone consultation will be booked with a BSS Senior Psychologist.
